**NRW-Japan B2B Meetings during the MEDICA/COMPAMED**

NRW.International organizes the B2B-Meetings together with the IHK Duesseldorf as a specialist coordinator and the IVAM Microtechnology Network as an executing organization. The meetings will be held between 12.-15.11.2018 between companies from NRW and Japan during the trade fairs MEDICA and COMPAMED in Duesseldorf.

If you are interested in a business meeting at the COMPAMED/MEDICA or have any questions please feel free to send Ms. Orkide Karasu this form via mail or fax. **The participation at the business meetings is free of charge!**

**The Japanese companies are searching for**

- suppliers of components for medical devices and microtechnology or for micromachining of their materials
- R&D partners (companies as well as research institutes) for the development of new medical devices and their components
- marketing, sales and distribution partners for the German and European market

**We are interestet to meet following Japanese companies (please tick the boxes):**

- Kanda Package Co., Ltd.:** Quickly installed emergency rooms in areas hit by catastrophes
- TOKO CO., LTD.:** Medical/ Operation Tools
- ESQ. LTD. :** High-tech pipes are used not only for endoscope, catheter, stents or other medical uses, but also for ABS parts of Mercedes-Benz, for aerospace industry by Lockheed Martin, etc.
- PURERON JAPAN CO., LTD. :** Filter/sensors for hemodialysis; water sensor for dialysis; molecular beam former, over 10nm pores in stainless steel; portable x-ray source
- TOSEI ELECTROBEAM CO., LTD.:** E-Beam and laser-processes; TOSEI has an implantable housing and is looking for partners with sensors for the housing for measuring vital parameters
- Asahi Rubber:** Rubber/Plastic-Products: e.g. in areas of micro fluidics: „Rubber-Sealing“ from microfluidic structures such as glass or metal; surface modification and coating; LED technology; medical technology: Disposables: plugs for infusion-bags or blood collection tubes
